

Questionnaire n. 2 : Consultation on the impact of the project

Introduction

Technological innovation proposed in CEREAL project is to reduce energy and water use in the whole production chain from raw material to consumption. Sustainability is not only addressed by ensuring a lower impact in terms of water and energy consumption, but particularly in terms of chemical safety. Development of innovative and efficient systems in CEREAL gives additional value to fresh-cut products which critically depend on packaging technology, within a context of eco-efficiency production, as the amount of raw polymers as well as wastage will be reduced and residues from food processing will be exploited to produce by-products (nanocellulose

Target group

All researchers , students and stakeholders and citizens, organisations and stakeholders with an interest and/or involvement in issues related to the project are welcome to respond to this consultation.

Aim of the consultation

- Gather information from the target group on specific elements, such as the impact of the project in several fields and inputs to be considered in the near future

The questionnaire is organized in the following questions :

1. Have you already participated in the consultation?

Yes

NO

If No Please answer question from 2 to 8

2 You are replying

as an individual in your personal capacity

in your professional capacity or on behalf of an organisation

3 Name of your organisation.....

4 Country of organisation

.....

5. Type of organisation

- Enterprise
- Research and academia
- Other (Please specify)
.....

6. How many employees does your the organisation have

- Between 50 and 250 employees
- Between 10 and 49 employees (Small enterprise)
- Less than 10 employees (Micro enterprise)
- Not applicable

7. Have you ever participated in projects of the European framework programme

- Yes
- No

8. If yes please indicate which kind of programme (FP, horizon2020, Eranet, etc.)
.....

9. Was let us know to which of the following topics are you interest :
(multiply answers allowed)

- Membrane
- Packaging
- Energy/water saving

10. At your opinion what extent do the projects add value for the environmental challenges facing Europe

- To a large extent

- To a fairly large extent
- To some extent only
- Not at all

11. At your opinion what extent do the projects add value for the **economical challenges** facing Europe

- To a large extent
- To a fairly large extent
- To some extent only
- Not at all
- Don't know

12. At your opinion how important is in general the impact of the Susfood Cereal with regards to the main challenges addressed ?

- | | | | | | |
|--------------------------|--------------------------|-----------------------------------|--------------------------|--------------------------|--------------------------|
| Very important | Rather important | Neither important nor unimportant | Rather not important | Not important at all | No opinion |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

13 . At your opinion What is the added value of the transnational cooperation compared to a national research approach in regard to the subject of the project?

- | | | | | | |
|--------------------------|--------------------------|-----------------------------------|--------------------------|--------------------------|--------------------------|
| Very important | Rather important | Neither important nor unimportant | Rather not important | Not important at all | No opinion |
| <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

Do you have any suggestion of challenges to face in future projects?

.....
