

Questionnaire n. 3:

Consultation on the effectiveness of the project dissemination activities

Introduction

In order to maximise the impact of the CEREAL project and to ensure that the science outputs of the project are made available and accessible to stakeholders and business operators, a thorough dissemination strategy is necessary to overcome the gap between scientific research and industry.

The results of the project are disseminated in different forms as indicated below in order to gain an awareness of the project and to enable interested parties to get in touch with the project consortium.

A project informative **website** (<http://www.cereal-era.net/news.html> . with information on objectives, partners' info, publishable summaries, journal publications, conference presentations, cornerstone results, press releases etc.)

The IPCB/CNR partner has created web site page with links to the general project web site and information about the activities performed by the Italian partner (<http://www.costfa0904.eu/era-net-susfood-cereal/>)

Target group

All researchers, students and stakeholders and citizens, stakeholders with an interest and/or involvement in issues related to the project are welcome to respond to this consultation.
